EXPERIENCE

SANDISK | SENIOR BUSINESS ANALYST

Jan 2025 - Present | Bangalore, India

- Led end-to-end **digital transformation of global customer support operations**, deploying omnichannel solutions (IVR+chatbot) across **40+ markets** to enhance CX, reduce agent handling costs.
- Spearheaded the Genesys implementation roadmap, aligning **\$2.5M** initiative with corporate CX goals to reduce handle time by **30%** and boost containment rates by **20%**
- Designed **15+** customer journey maps and business process flows for contact center routing, integrating OSC CRM and reducing manual handoffs by **45%**.

WESTERN DIGITAL | BUSINESS ANALYST 2

July 2023 - Present | Bangalore, India

- **Spearheaded the identification and resolution** of manual bottlenecks in product catalog updates by leading an initiative to **automate data synchronization** between PDH and OSC systems using API integrations.
- Drove **cross-functional collaboration** between product, engineering, and business teams to ensure seamless execution of product updates and integration initiatives.
- Led the **User Acceptance Testing (UAT)** process, coordinating with Development, Business, and Agent teams to validate functionality and **ensure alignment with product requirements**.
- Successfully **reduced processing time by 40%**, minimized errors, and optimized resource allocation, resulting in significant cost savings and improved operational efficiency.

CARS24 | DATA SCIENCE INTERN

March 2022 - May 2022 | Remote

- Contributed in the development of an **Automated Odometer Reading** system to address discrepancies in vehicle listings, impacting over **2000** vehicles on the company's platform.
- Improved system performance by **boosting mean average precision (mAP) by 20%**, enhancing the overall accuracy and reliability of data displayed to customers.
- Worked with product and engineering teams to integrate the solution into the workflow, enhancing the user experience.
