EXPERIENCE

SANDISK | SENIOR PRODUCT ANALYST

Jan 2025 - Present | Bangalore, India

- Owned the product roadmap for a global customer support transformation, aligning a **\$2.5M** budget with corporate CX goals to launch omnichannel capabilities (IVR/Chatbot).
- Prioritized feature backlogs for the Genesys platform integration, balancing technical constraints with stakeholder requirements to deliver value across **40+** international markets.
- Led cross-functional agile teams through the development lifecycle, delivering a solution that reduced agent handling costs and improved customer satisfaction scores.

WESTERN DIGITAL | BUSINESS ANALYST 2

July 2023 - Jan 2025 | Bangalore, India

- Championed an internal product initiative to automate catalog management, leading the project from problem definition to successful rollout and adoption
- Drove collaboration between Product, Engineering, and Business teams to execute complex API integration features, removing critical operational friction.
- Managed the User Acceptance Testing (UAT) phase, acting as the bridge between developers and end-users to ensure the final product met all acceptance criteria.

CARS24 | DATA SCIENCE INTERN

March 2022 - May 2022 | Remote

- Defined the problem statement for trust gaps in vehicle listings and contributed to the development of an Automated Odometer Reading product feature.
- Collaborated with the product team to translate technical model capabilities into user-facing value, ensuring the solution addressed a core customer pain point.
- Supported the rollout of the new verification feature, monitoring its impact on listing reliability and user trust across 2,000+ vehicles.

PROJECTS

CUSTOMER LOYALTY IN ONLINE SHOPPING | MBA THESIS, MARKET RESEARCH

- Analyzed key drivers of customer loyalty in online shopping using quantitative and qualitative methods.
- Delivered recommendations for product features to enhance satisfaction and long-term engagement.
